

How to build a dipsy doodle.

Step One:

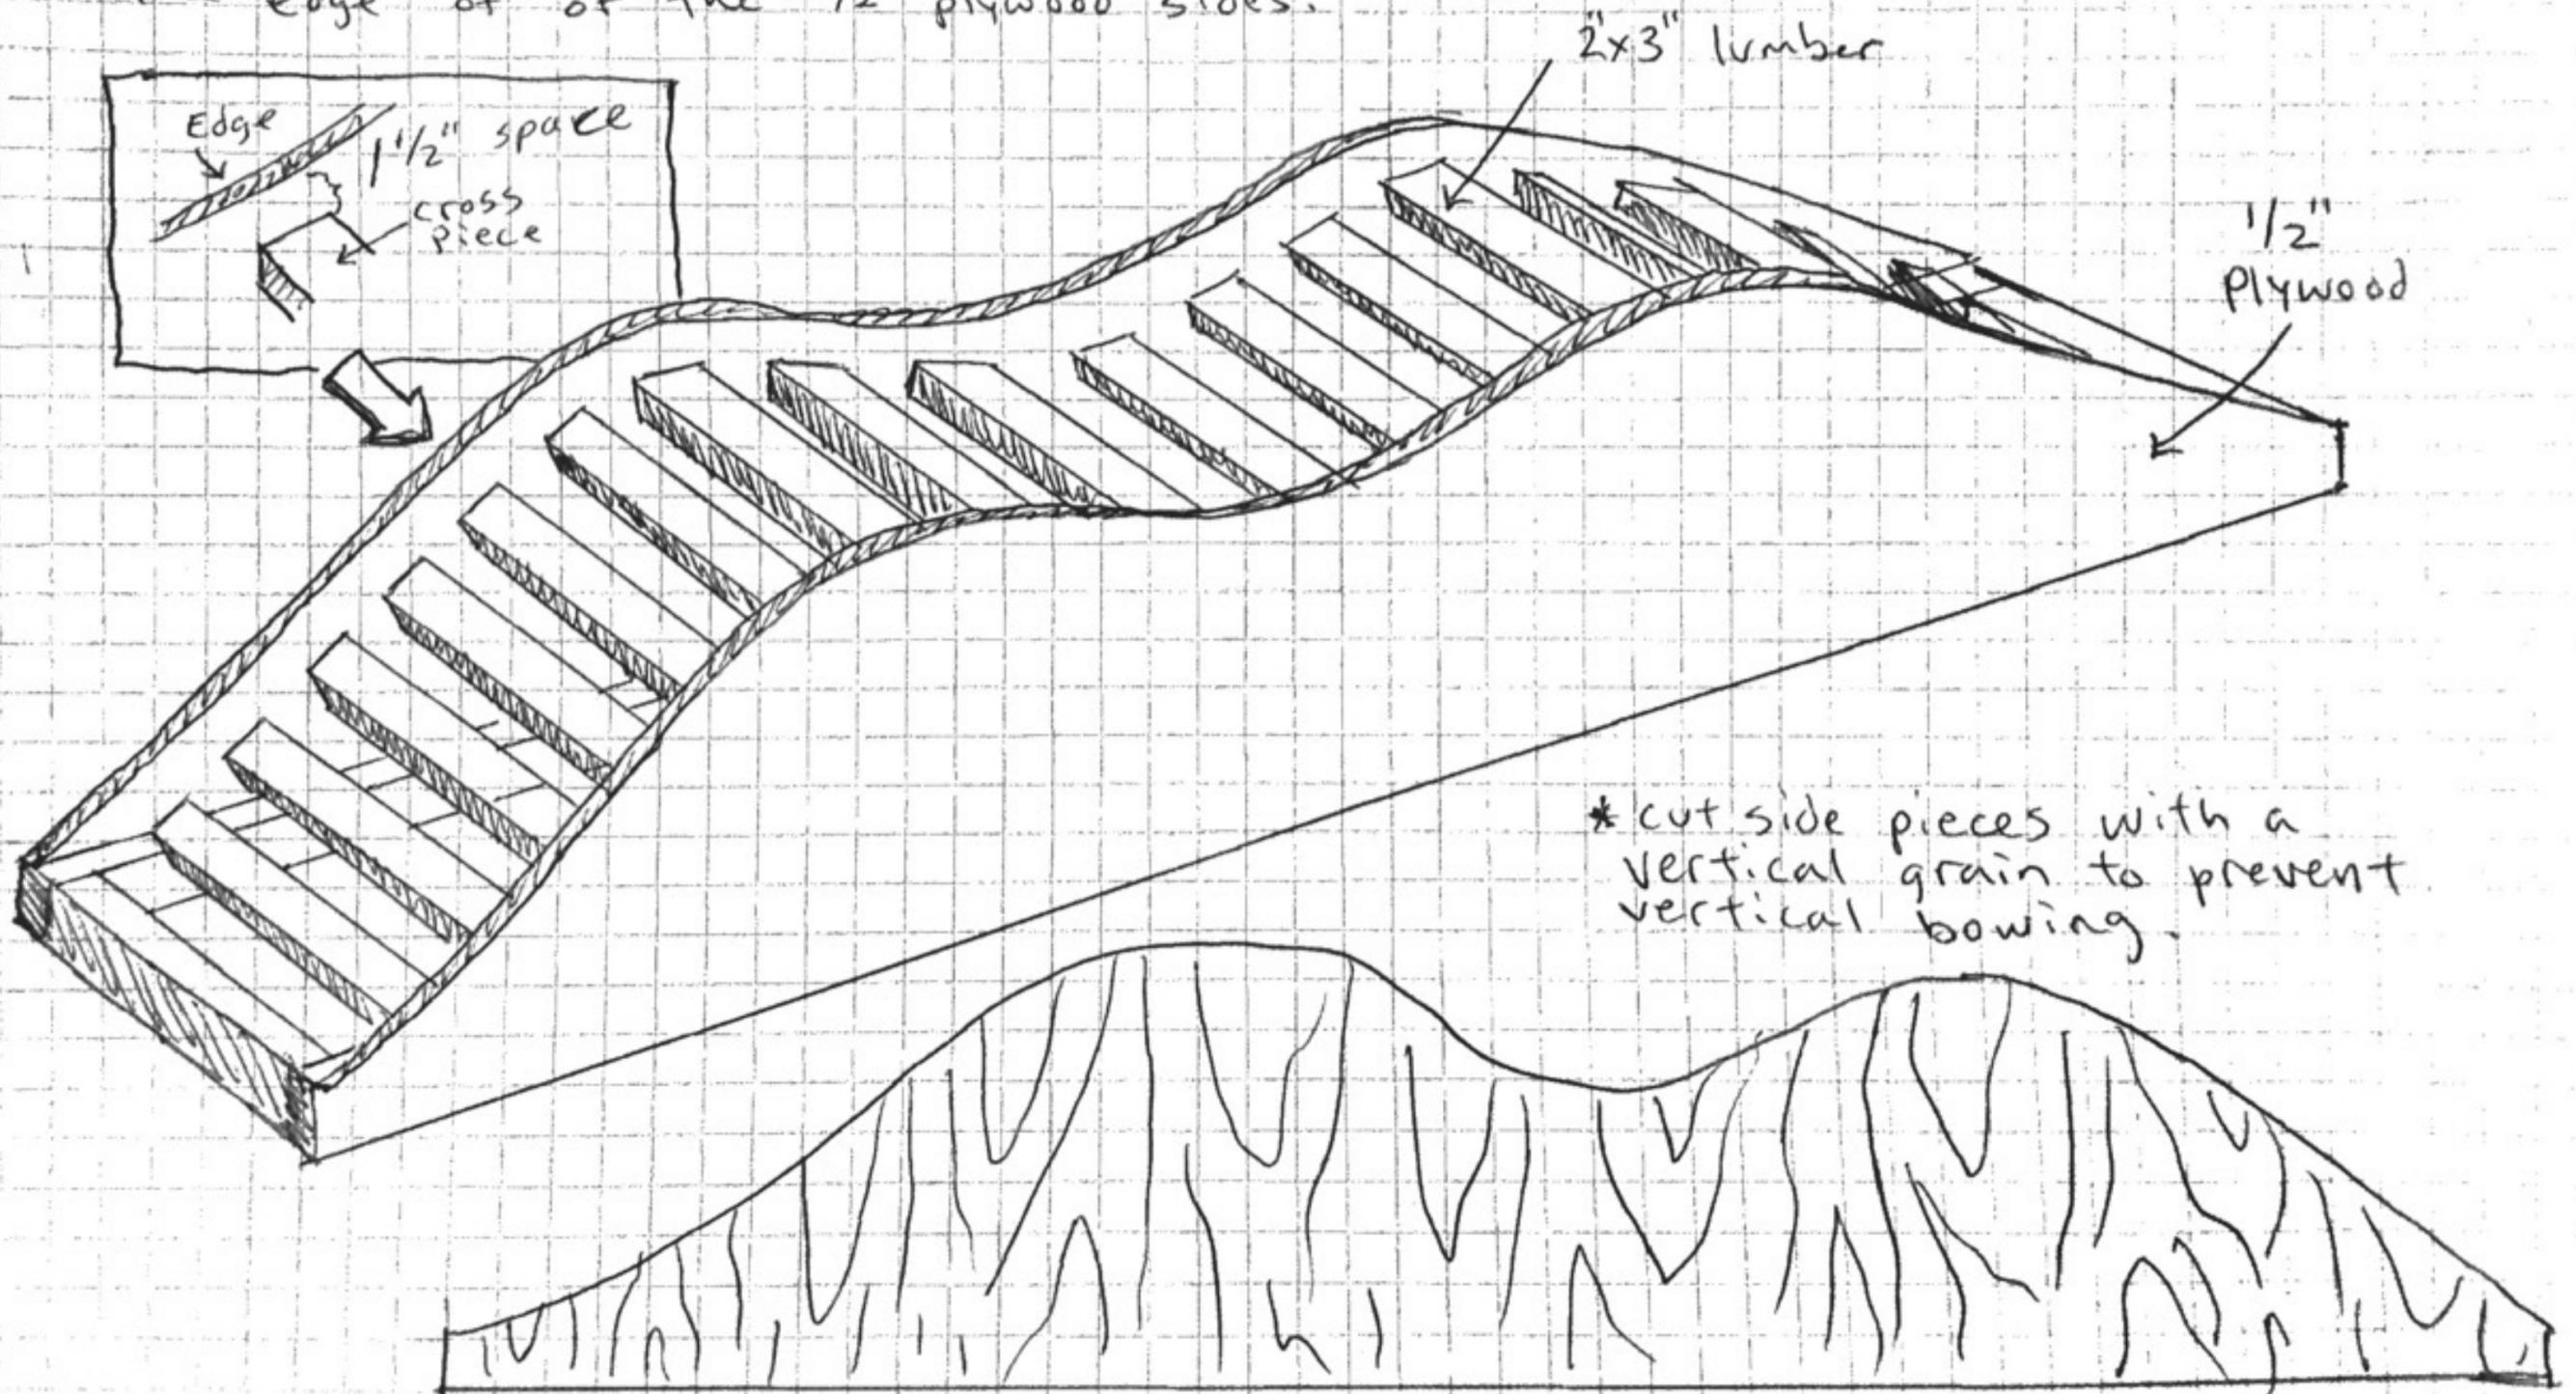

- Build out your base with 2"x3" framing lumber.
- You will only need a few cross pieces.

How to build a dipsy doodle.

Step Two:

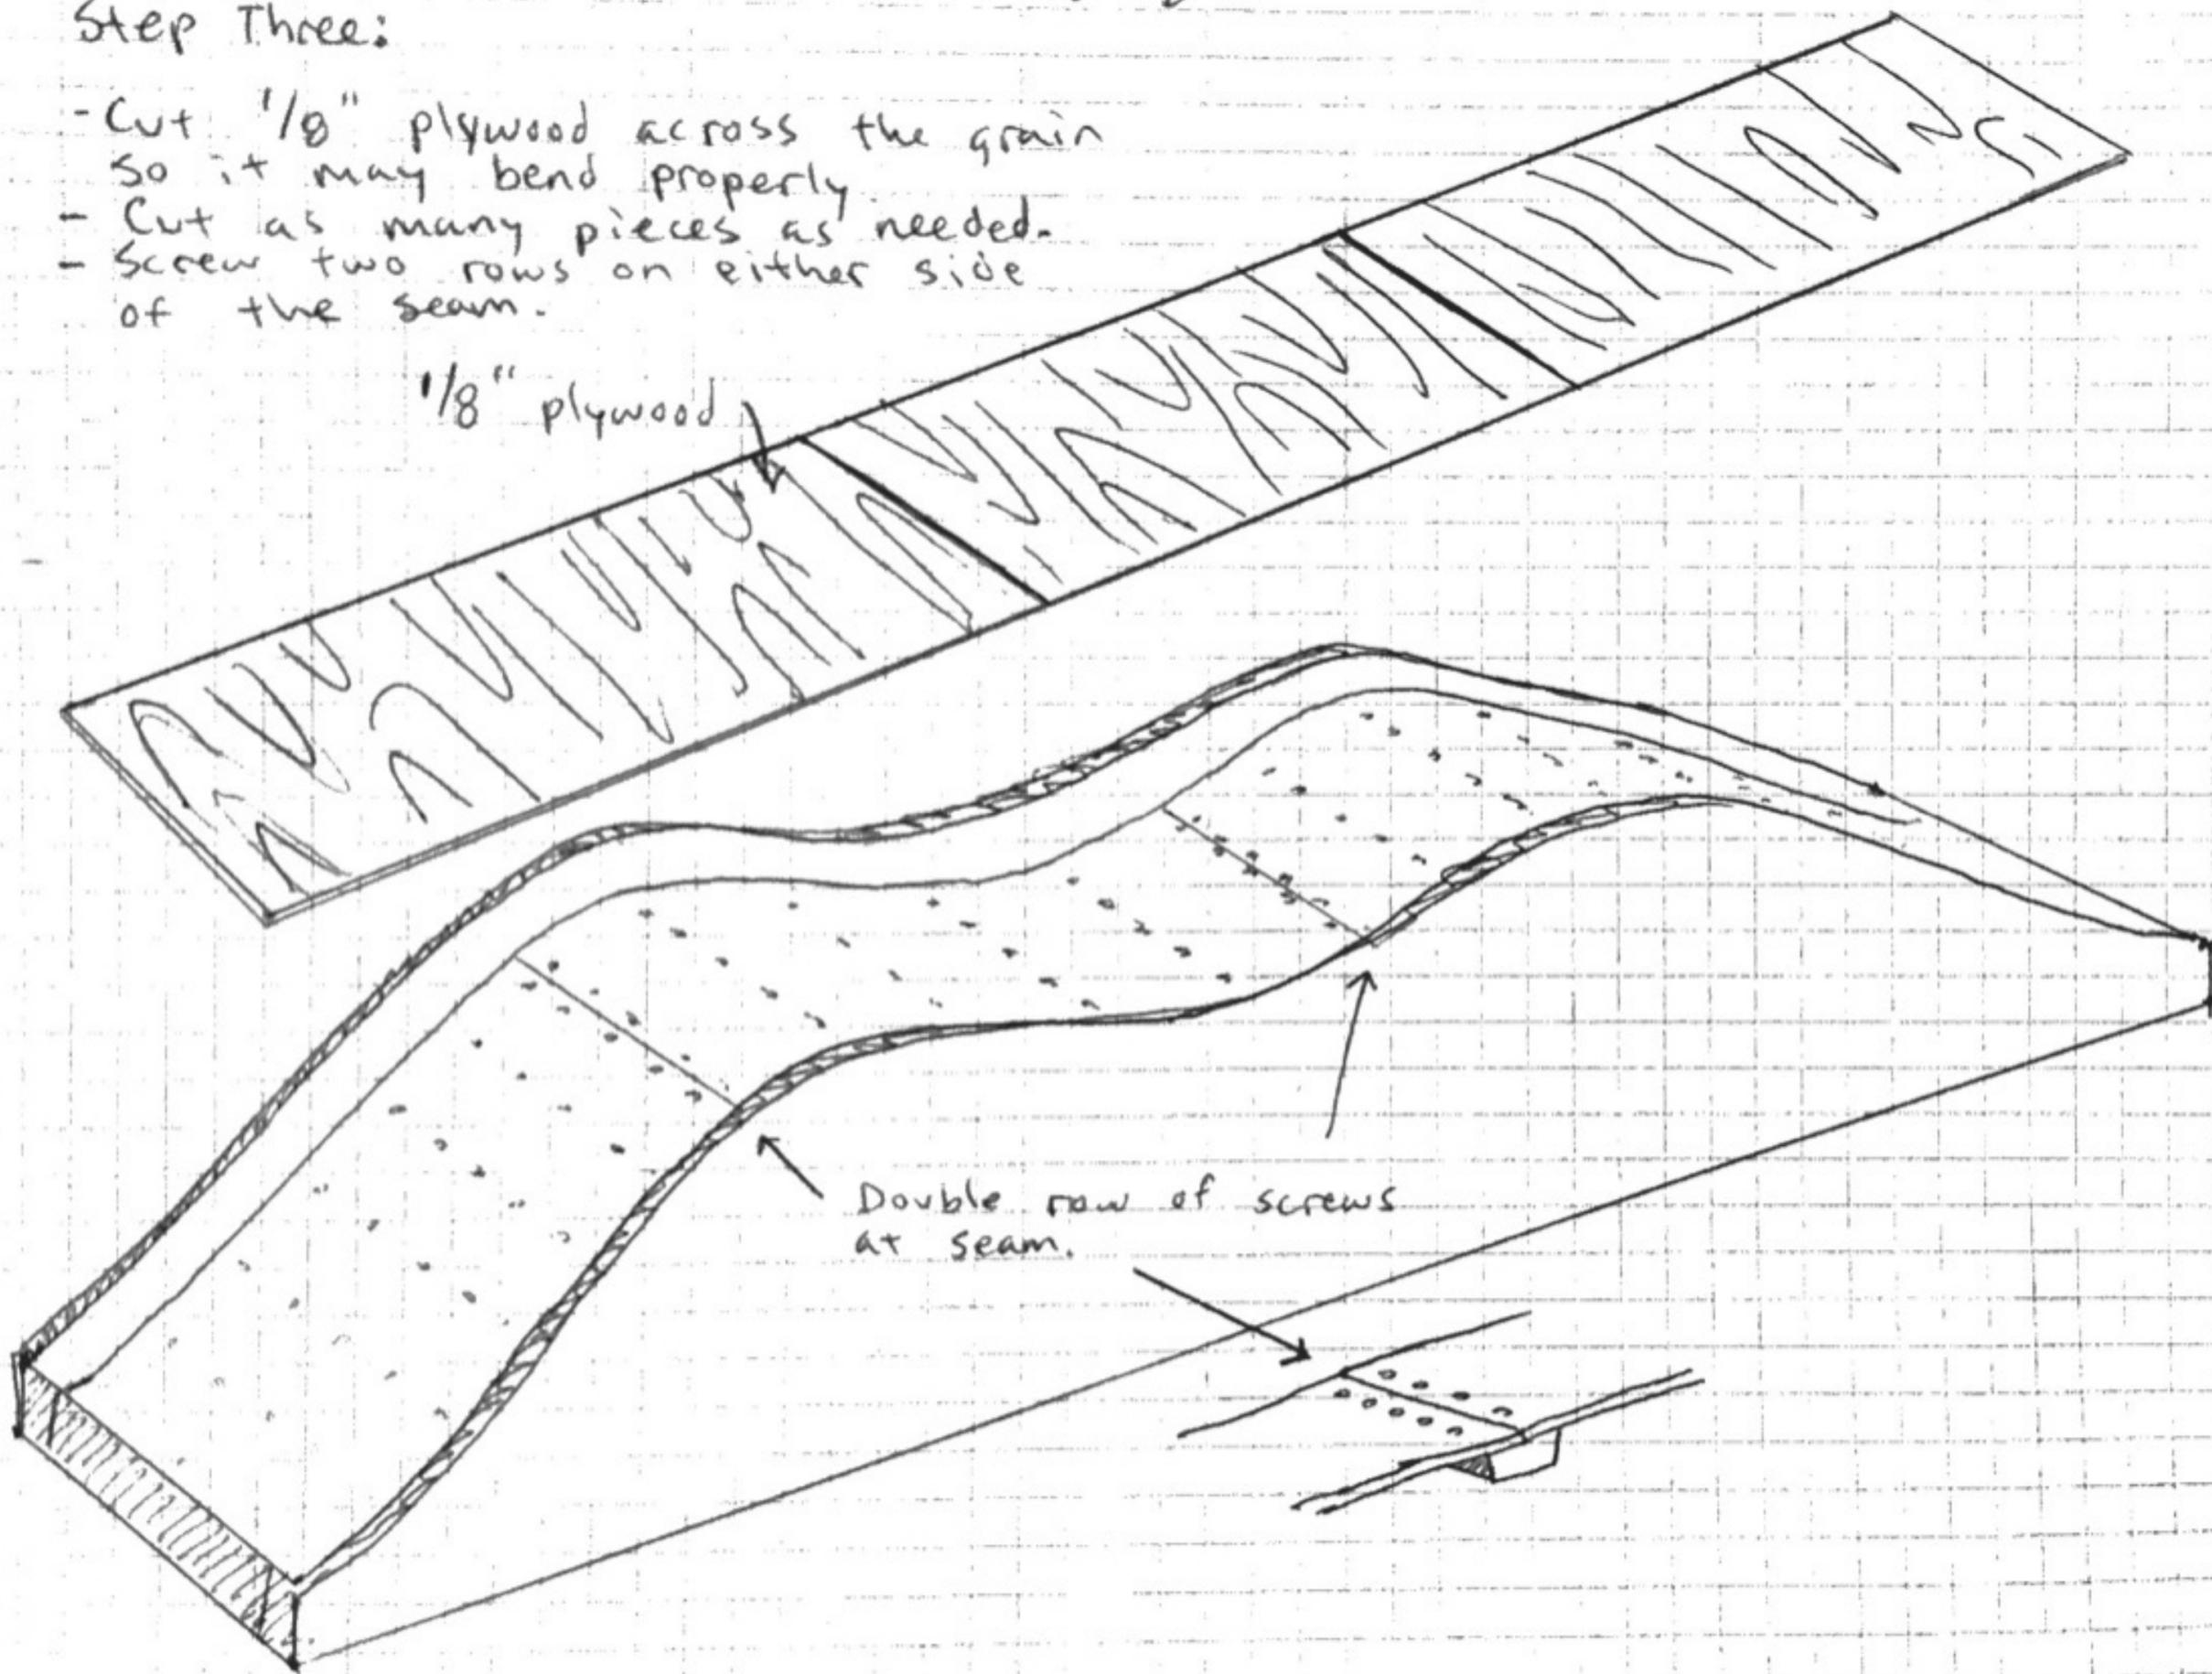

- Cut $\frac{1}{2}$ " plywood for sides. Screw them in at the base.
- Attach 2×3 " cross pieces spaced 2 "- 3 " apart.
- Leave $\frac{1}{2}$ " space between the cross piece and the edge of of the $\frac{1}{2}$ " plywood sides.

Step Four:

- Add a 2' to 3' lead up putting area.
- Attach this to the dipsy doodle.
- Use 2" x 3" lumber for cross pieces topped with 1/2" plywood cut lengthwise with the grain to prevent dips between the cross pieces.
- Space cross-pieces 6" apart.
